More Cooking Capacity per Sales Dollar
More Performance per Gas Dollar

 **Peerless**
Commercial and Industrial Ovens

Floor space	50" (127cm) wide x 42" (106.7cm) deep* x 54" (137.2cm) high
Shelf size	42" (106.7cm) wide x 32" (81.3cm) deep x 12" (30.5cm) high
Shipping weight	525 lbs (238kg)
Capacity	Two 18"x26" bun pans per section
Gas	Maximum 60,000 BTU input
Opening required for installation:	25" * Handle adds 2.5"(6.4cm) to depth

Adjustable Legs

Durable Construction

The CW51B is built with *prime 20-gauge cold-rolled top and sides* with a 14-gauge base. The *interior is made of Armco Type 1, 20-gauge aluminized steel*. The CW51B comes standard with stainless steel front, or optional all stainless steel finish. The stainless steel is made of high quality, 18-gauge 430 stainless; the door interior is 18 gauge stainless.

Energy Efficiency

The CW51B features our *new energy-saving "Power-Pak" 4-cell burner system* and our *unique baffle system*. These make our ovens highly efficient and eliminate hot spots. The *heavily insulated walls*, coupled with our *special vent system*, reduces heat loss and keep your gas dollars from going up the stack. The CW51B is powered by 60,000 highly efficient BTUs which *increases its efficiency and recovery rate*.

Capacity

The CW51B deck size measures 42"x32"x12". The CW51B will hold two (2) 18"x26" bun trays per oven. Cook time will vary according to product. An optional two piece rack is available to increase capacity allowing up to four pans.

Space Saver

Because the controls are under the door, the CW51B requires *less installation space* than our competition. This enables you to free up valuable kitchen and/or hood space. The actual width needed is a mere 50" for a 42"x32" deck, almost a foot less than the competition. The CW51B *can convert into a CW52B or CW53B by stacking*, either initially or after your business grows. This option gives you two or three 42"x32" decks in only 50" of space.

Design Plus

The CW51B has the *controls in lower front for ease of operation and space savings*. This also places the controls in their own *air-conditioned area* so they are not affected by outside influences. In addition, the CW51B is *totally thermocoupled* and allows you to replace individual parts as opposed to throwing away the whole system.
